

Professional Audits

ARE YOU GETTING THE BEST RELIABILITY OUT OF YOUR LUBRICATION PROGRAM?

*If you are not sure - **THEN MAKE SURE!***

The Fluid Life Corporation Proudly Presents

Lubrication Audit Services

PROGRAM ONE:

Do these thoughts go through your mind?

- ☑ What equipment should I include in my oil analysis program?
- ☑ Where should I take my oil samples?
- ☑ What is the best procedure for taking a good sample?
- ☑ What tests should I do on this particular component?
- ☑ I wonder how often I need to take these samples?

DID YOU SAY - "YES"

If so - then you need the...

OIL ANALYSIS SURVEY

- ★ *This survey reviews all oil-operated equipment at your facility to determine the need for an oil analysis program.*
- ★ *Identifies appropriate equipment for an oil analysis program and/or reviews existing equipment on a program.*
- ★ *Recommends best oil sample locations*
- ★ *Recommends oil sample tests and frequency*
- ★ *In addition the survey will identify obvious opportunities for improvement in contamination control for the selected equipment.*

But that's not all..

Is your equipment getting the best lubricants and routine servicing that it should?

Is your organization best aligned to maximize long-term reliability and profit?

Professional Audits

PROGRAM TWO:

Are you asking yourself these questions?

- 👍 Am I using the best lubricants for my equipment and operating conditions? (*Remember - "Best" does not mean highest quality or price.*)
- 👍 How often do I need to change out the lubricant?
- 👍 How much grease should I add to the equipment and when?
- 👍 Do I need to improve my storage facilities?
- 👍 Can I consolidate or reduce the number of lubricants at my facility?
- 👍 Do we store and handle our lubricants in an appropriate manner?
- 👍 Are we losing money because of our lubrication program?
- 👍 Is our existing lubrication program limiting or preventing us from achieving maximum profits and reliability?
- 👍 Is our filtration program effective in protecting the equipment?
- 👍 Is contamination restricting our goals?

Sounds like you need this audit....

EQUIPMENT LUBRICATION AUDIT

This is a detailed survey providing a complete unbiased audit of all lubricated equipment (oil & grease) at your facility. This audit will review the following areas:

- ◆ *Purchasing (How/Who/Supplier(s), etc.)*
- ◆ *Receiving (QC, Inspections of new product received etc.)*
- ◆ *Bulk Oil & Grease Storage Facilities*
- ◆ *Package Storage (Drums, pails, etc.)*
- ◆ *Product transfer practices from storage to equipment*
- ◆ *Filtration carts, oil fill containers*
- ◆ *Overall Contamination Control*
- ◆ *Top up and re-fill practices and techniques*
- ◆ *Contamination Exclusion devices (air breathers)*
- ◆ *Review all oil and grease lubricated equipment and recommend appropriate lubricant product.*
- ◆ *Identify alternate lube/grease products to maximize cost benefits and equipment reliability*
- ◆ *Re-greasing techniques and program*
- ◆ *Recommend re-greasing schedule and quantity*
- ◆ *Opportunities to reduce/consolidate lubricant products.*

PROGRAM THREE:

OK - Maybe you didn't ask yourself these questions - so I will.

- Are your oilers, lube technicians, planners and supervisors effective in meeting your goals or requirements?
- Is your organization working together to fulfill a common goal?
- Does your lubrication organization structure need to be tweaked or overhauled?

LUBRICATION MANAGEMENT AUDIT

This audit starts by interviewing all of your key personnel involved in the lubrication program at your facility. This audit will take a hard look at your overall management program and make recommendations to take your organization to the next level of long-term sustained reliability and profitability.

PROGRAM FOUR:

Here is your chance to mix and match any or all parts of the above three audits into one customized program designed specifically to meet your needs and operation.
