

WinRoast[®] Report Writer Training

Get the Best Value Out of Your Oil Analysis Histories

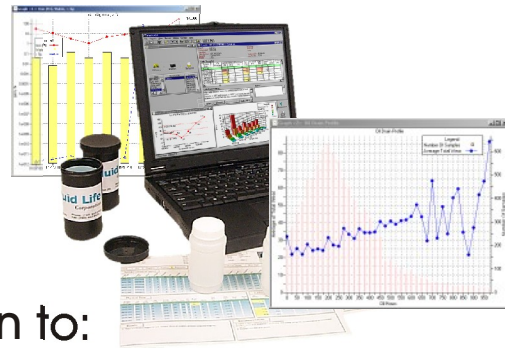

WinRoast Report Writer is a valuable data management tool that is an extension of WinRoast. Its goal is to create relevant and detailed reports and summaries based on the extensive data contained in your WinRoast database. Reports can range from relatively simple, to very comprehensive and detailed.

WinRoast Reports – 2 DAY COURSE

Prerequisites:

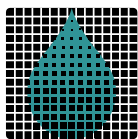

- Technically proficient computer user.
- Experienced WinRoast user.

In this course you will learn to:

- Create basic reports using the built in Wizard, similar to those included in WinRoast.
- Manipulate and edit existing reports.
- Create a flagging report, quantify number and severity of flagged results.
- Create a compliance report, inspect the integrity of your data
- Create a contamination report, view and summarize wear contamination.
- Create advanced reports, with full flexibility.
- Include date range functionality.
- Add graphs.
- Add ranges for grouping data, useful for creating flagging limits.
- Add these custom reports to WinRoast for easy access, printing and scheduling.
- And more...
