

FILTER ELEMENTS

Filmax Ultra Fine Filtration Elements

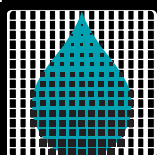

Filmax manufactures multiple configurations of ultra-fine filtration elements to meet the needs of your fluid power system. In addition to ultra-fine filtration elements, Filmax also offers a full product line of quality high-flow pleated and stack disc filters for fluid recovery at up to 1 800 GPH.

Model	Application	Dimensions
HY-4004	For hydraulic oils in large fluid power systems, insulating oils, transmission fluids and more.	7.25" dia. x 19.75" Large 4 section element.
HY-2002	For hydraulic oils in large fluid power systems with high particulate contamination.	7.25" dia. x 19.75" Large 2 section element.
HY-2751	For hydraulic oils in medium size fluid power systems with high fluid contamination.	7.25" dia. x 15.00" Large 2 section element.

Model	Application	Dimensions
DE-6011	For high viscosity petroleum based gear oils.	7.25" dia. x 19.75" Large 6 section element.
DE-4011	For lubricating oils in large mobile and stationary engines.	7.25" dia. x 19.75" Large 4 section element.
DE-2011	For lubricating oils in large mobile and stationary diesel engines.	7.25" dia. x 19.75" Large 2 section element.
DE-2761	For lubricating oils in medium size mobile diesel engines.	7.25" dia. x 15.00" Large 2 section element.
