Filmax Ultra Fine Side Stream Filtration For Natural Gas And Combustion Engines

Filmax specializes in Maximum Ultra Fine Filtration for Mobile and Stationary Engines from 100 HP to 5000 HP. Filmax Ultra Fine Filtration removes oxidation and nitration by-products that attack oil and oil additive packages that result in fluid breakdown. Filmax has proven to extend engine oil life allowing customers to extend oil drain intervals up to 1200 hours (combustion), and over 3000 hours (natural gas) engines. Filmax is installed on engines as Side Stream Filtration continuously super cleaning a small amount of the oil and then returning it to the engine crank case. Filmax Ultra Fine Filtration is currently being utilized on CAT3500 and CAT3600 stationary engines with some applications achieving 8000-hour oil drain intervals.

F-1000

REMOVES OXIDATION AND NITRATION BY-PRODUCTS

F-750

F-500

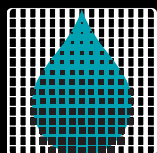

**SHORT TERM ROI
EXTEND DRAIN
INTERVALS**

**LONG TERM ROI
EXTEND ENGINE
OVERHAUL**

DIMENSIONS:	23 X 11 X 9-1/2	18 X 11 X 9-1/2	13 X 11 X 9-1/2
PORT SIZE:	1/2" NPT	1/2" NPT	1/2" NPT
OPERATING PRESSURE:	125 PSI	125 PSI	125 PSI
FILL CAPACITY (QTS):	20	16	12
FLOW RATE (GPM):	3.0	2.25	2.0
REMOVAL CLEARANCE:	21"	17"	13"
WEIGHT:	29 lbs	26 lbs	23 lbs
