

# Series Testing

Series No.	Testing	Suggested Application
Series 1	Base Package: <ul style="list-style-type: none"> <li>• Spectrometry</li> <li>• Viscosity</li> <li>• Soot (Diesel)</li> <li>• Water Contamination (Crackle Test)</li> <li>• Glycol Contamination (Engines)</li> <li>• Fuel Contamination (Engines)</li> <li>• Oxidation/Nitration (Natural Gas)</li> </ul>	Base package for all components.
Series 2	Base Package Plus: ISO Particle Count	Hydraulics, Compressors, Transmissions
Series 3	Base Package Plus: Acid Number	Hydraulics, Compressors, Natural Gas Engines
Series 4	Base Package Plus: ISO Particle Count, Acid Number	Hydraulics, Compressors, Gas Turbines, Bearings, Transmissions
Series 5	Base Package Plus: ISO Particle Count, Acid Number, Karl Fischer Titration	Hydraulics, Compressors, Gas & Steam Turbines, Bearings
Series 6	Base Package Plus: Base Number	Diesel Engines, Natural Gas Engines
Series 7	Base Package Plus: ISO Particle Count, Karl Fischer Titration	Hydraulics, Compressors, Gas & Steam Turbines, Bearings, Paper Machine Oils
Series 8	Base Package Plus: Sediment	Gear Boxes, Aviation Components, Final Drives

Note: Specific testing packages can be augmented by adding any of the following options.

A=Karl Fischer Water Titration  
B=Triggered Photo  
C=With Photo

Example: Series 2AC = Series 2 + Triggered Karl Fischer Titration+ Photo.
